RE: In the Matter of Schools and Libraries Universal Service Support Mechanism,  
CC Docket No. 02-6, Estimate of Demand for Funding Year 2010

Dear Ms. Gillett:

USAC's estimate of demand for Schools and Libraries Universal Service Support Mechanism discounts for Funding Year 2010 (July 1, 2010 to June 30, 2011) is \$3.92 billion. This estimate is based on total funds requested in 42,713 applications received or postmarked on or before February 19, 2010, the close of the Form 471 filing window. A table showing demand by service type and discount band is attached to this letter.

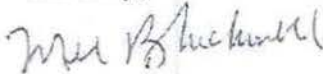

The total estimated demand for Funding Year 2010 decreased approximately \$70 million (1.8 percent) from the estimated demand for Funding Year 2009 of \$3.99 billion. Estimated demand for Priority One funding (telecommunications services and Internet access) is \$2.038 billion, essentially the same as last year (\$2.043 billion), while estimated demand for Priority Two funding (internal connections other than basic maintenance and basic maintenance of internal connections) is \$1.88 billion, a decrease of 3.09 percent. Estimated demand for Priority 2 services at the 90 percent discount rate increased by \$195 million (24.1 percent), to a total of \$1.003 billion. For Funding Year 2010, 98.5 percent of timely applications were filed online, essentially the same as the 98.3 percent from Funding Year 2009. In addition, 80.3 percent of Form 471 certifications were filed online, which was essentially the same as last year.

USAC's reviews will ultimately reduce the Funding Year 2010 demand from the estimated level set forth in this letter and the attachment. First, while USAC has made every effort to eliminate duplicate funding requests from this estimate, inevitably we will discover more duplication as we process these applications. Second, USAC's efforts to assure that funds are committed only for eligible services for use by eligible entities with the appropriate discount rate and otherwise consistent with program rules will further reduce the demand.
